Brazilian Cherry Shaker Bamboo

Brazilian Cherry Shaker Bamboo cabinets add a unique and attractive look to any kitchen and are significantly more durable than the average hardwood cabinet. This line of bamboo cabinets has been designed by Eco-Cabinets to be as eco-friendly as possible. Our customers asked for an environmentally friendly, attractive and affordable kitchen cabinet and we responded with the Brazilian Cherry Bamboo Shaker Collection by Eco-Cabinets. The name says it all, this handsome cabinet collection is in the Shaker style, with a 3/4 inch framed solid bamboo door and drawer front.

The Brazilian Cherry Bamboo Shaker Collection is the perfect look for a modern or contemporary kitchen. With these styles tending to be a bit stark or cold, the warm hue of the Brazilian Cherry finish offers a dramatic increase in temperature in the kitchen. These cabinets can handle some pretty dramatic color palettes - while many color schemes in modern and contemporary kitchens are monochromatic - meaning they use variations in lightness and saturation of a single color - these cabinets can handle a pop of a bright color against a more neutral main or secondary color.
