Lexington Kitchen Cabinets

If you are looking for elegant simplicity and refinement in your kitchen, then our new Lexington Collection is the perfect cabinetry set for you. The line combines modern simplicity with a traditional wood hue for a look that is the perfect balance of classic and contemporary. Whether you are remodeling or building a kitchen from scratch, these cabinets will surely take your kitchen to the next level of interior design. Doors and Drawers will have a distressed look to them - knots and other characteristics may be visible. This collection "draws its inspiration from early American antiques that are clean in design and very purposeful in function. Each piece is crafted in the tradition of fine furniture and finished with a multi-step, hand detailed finish that brings out the beauty of the select hardwood solids and veneers." You can rest assured you are getting the character of antique style furniture with all the modern day conveniences. The sleek, straight lines of the cabinetry are beautifully complemented by the rich wood finish, creating a modern kitchen without sacrificing warmth and comfort. The elegant color and design of the Lexington Collection allows it to slip effortlessly into a variety of color palettes and design styles. Yellow, off-white and cream hues are natural complements that bring out the richness and warm elegance of these cabinets. Accents in pale greens and blues will add brightness without sacrificing the cozy ambiance. Darker colors, like deep greens and reds, will steer the style in a more formal direction.
